

8 Reasons Why You'll Want To Use *Your Technology Partner* To Upgrade, Support, And Fix Your Computer Network.

1. Your Technology Partner is a **financially stable company** with the same owner since February 2004. You can count on us to be here long-term and stand by all of our work. To date, over 100 companies in the South Florida area have trusted us to upgrade, maintain, and fix their computer network and we have a stellar reputation in the business community.
2. **We GUARANTEE 1-hour response time.** When your computer network goes down, you need it fixed **immediately** so you can get back to running your business. We guarantee to respond to crisis within 1 hour of your call if not sooner.
3. **We can schedule system upgrades and fixes after normal business hours so as not to interrupt your business.** System upgrades and installations can bring down your system for several hours. That's why we can schedule these types of upgrades during the evening or weekends so as not to interrupt your 9-5 business.
4. We are **far less expensive** than hiring full time computer support staff. By outsourcing your computer support to us, we can save your thousands on hiring, salary, and benefits.
5. **Our technicians are highly trained to solve your problems fast and cost effectively.** Our technician all maintain vendor certifications and have over 20 years of field experience working on hundreds of other computer networks. They are trained to find the most cost effective solution to your problem instead of charging you for expensive upgrades, hardware, and solutions that aren't necessary.
6. **We GUARANTEE that we can solve your computer problem or it's FREE.** When you hire us to solve a problem, we will fix it right the first time so you can get back to running your business.
7. **We are big enough to handle any computer job and small enough to still provide you the individual attention you deserve.** As a customer, you will have direct access to me, the owner, to handle any problems, concerns, questions, or issues you may have.
8. **We give flat rate project pricing.** Unlike other computer support companies, we'll give you one flat rate for a project and guarantee to deliver your solutions without charging a penny more. This gives you peace of mind knowing you won't end up with a bill 2 or 3 times more than you anticipated or getting hit with hidden charges or extra hours.
